

I have been listening to K-Love in our area for many years and feel that it has the most positive message of any of the radio stations. I can have it on when my grandchildren are around and not have to worry about whether the lyrics are suitable. If K-Love were to be displaced by LPFM broadcaster it would be a great loss to our community and to the future generation. I know that people receive hope and encouragement by listening to K-Love that doesn't happen with most radio stations. Please consider carefully your decision to expand the LPFM service.

Thank you, Rosalie Stavaas
